## Haute Couture

The Cappuccino Collection is a brand of Dinal Diamonds, which was founded in 1971. The line of finely handcrafted jewels is exotic to say the least. The art of blending natural coloured champagne diamonds, with precious stones and pearls in various finishings and alluring forms is something Cappuccino seems to have mastered over the years. The three sub-brands of the main line are Espresso, Latte, and Irish.

The Espresso collection is a beautiful combination of Indian and Western influences, and complements an evening wear or a cocktail party dress with ease. The Latte Collection is traditional yet exotic bridal jewellery that is handcrafted meticulously with a combination of champagne diamonds, precious gemstones and pearls. The Irish collection is high-end fashion jewellery featuring a cluster of diamonds in various cuts.
