

« Sublime Offerings

his IIJS, A'Star Jewellery presents an eclectic choice of necklace sets to suit all occasions and price points. A must-have product line for the upcoming festive season, every piece has a story to tell.

Elegant, versatile and affordable, the 'Eva' pendant-necklace has been designed for today's modern woman. It is an accessory that will work as a perfect extension of her personality and complement her diverse wardrobe. The collection with a selection of over 50 designs incorporates classic to fusion styling. Charming motifs are accentuated with sparkling diamonds and vibrant gemstones to create a chic look.

The 'Stardust' collection is inspired by Greek mythology. In ancient Greece and Rome, diamonds were believed to be splinters from the falling stars. A'Star captured these celestial fragments to interlace them with jewellery. The enchanting necklaces show off diamond-encrusted curves and iridescent motifs depicting an aura of sprinkled stardust and shooting stars. The collection is a celebration of celestial beauty. ■
