Blush

# Nature's Fête

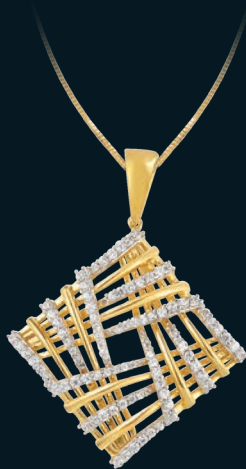

A Star Jewellery unveils its latest collections for the upcoming season which draw inspiration from nature's beautiful creations. The collective theme **An Ode to Nature** encompasses over 100 designs across five collections, comprising a wide selection of necklace sets, pendant sets and bracelets.

Various elements of nature influence the design aesthetics, exploring organic shapes and forms. Aura captures the shimmering beauty of sunrays while pink rubies in the Blush collection glorify the enchanting flower. The undulating forms of Aquatica portray the harmony of nature's water bodies; the delicately woven designs of the Weaves collection depicts the flexibility of cane, and the Aamra collection pays homage to the king of fruits, the exotic mango.

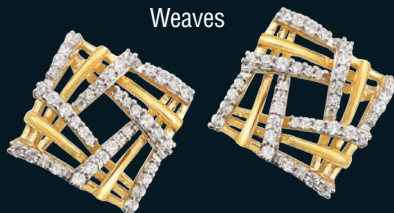

Available in 18-karat yellow and white gold studded with diamonds, these delicate and contemporary designs are extremely wearable and a perfect accessory for the sophisticated woman of today. Lightweight and affordable, the collections allow her the luxury to flaunt her individuality and femininity on a daily basis.
