

Checks and stripes

Fashion Forward

Art Star Jewellery's new collections are an artistic interpretation of latest trends right off the runways of Milan, Paris and London.

Inspired by styles #TRENDINGNOW from dramatic fringes to mixed checks and stripes layering to striking geometric shapes and racy cut-out patterns, the exotic jewellery designs ingeniously integrate every nuance from print to silhouette with the harmonious play of precious metal and fine quality diamonds.

Various techniques such as advanced CAD for 3D forms and cut-outs, texturing, beading, layering of materials, and play of matt and gloss surfaces have been used to craft these jewels that are a beautiful metamorphosis of fashion trends into contemporary jewellery.

Crafted with 18-karat pink, white and yellow gold, and studded with round and baguette diamonds, the distinctive jewellery is a perfect fit for the avant-garde woman with a sense of adventure and penchant for bold and edgy accessories.
