from four powerful animals. Encompassing the complete blend between craftsmanship and technology, these everyday wearables will underscore the man's personality trait. Made in brass and available in a plethora of platings and finishes, the collection includes lapel pins, cufflinks, and button covers. They are a guaranteed conversation-starter at each event.

Silken Elegance

A'Star Jewellery

A'Star Jewellery is all geared to stir up a more exciting time at IIJS Signature 2020 with the launch of five vivid jewellery collections. Using colour and form to help set a mood, emotion and expressiveness have been imbued in each design such that the jewellery speaks for itself. The versatile use of brilliant diamonds is the perfect foil to this eloquence; be it a hint of coloured enamel Wadding Moroccan charm or a playful spread of glittering diamonds emulating a starburst or the play of matte and glossy surfaces replicating sun-kissed sand or ombré highlights using pink and blue gemstones or diamond clusters conveying luxurious lace motifs, every design is an expression in itself. Available in 18-karat white, yellow and pink gold, these rings, earrings and pendants are an articulation of beauty and add a delightful touch to the wearer's attire.
