In all their myriad forms, the ubiquitous flowers embody true beauty that has no bounds. Inspired by this vibrant floral world of elegant shapes and organic curves, the collection explores motifs that range from simple to sophisticated, using the 3D form to add versatility. Crafted in yellow gold - 9k to 18k, the jewels are enticingly studded with diamonds to add vibrancy to every layer and petal. A dazzling centre with illusion diamond setting adds volume and dimension. Connect to nature with these flower-patterned rings, pendant sets and oval bracelets. No matter the season, these enchanting flowers bloom all year long.
