Gold Wt: 2.90 gms
Diamond Ct: 0.33 cts

Drawing inspiration from nature's delicate beauty and the romanticism of geometric art, A'Star Jewellery offers an exciting choice of collections at IIJS Tiritiya 2023.

The collections present a symphony of silhouettes, where each form symbolises a powerful emotion and serves as more than just a decorative design. The emotions are a reflection of the modern woman who stays true to herself and embraces her spirit; her Hope, Courage, Versatility, Calm, Harmony and Happiness.

Crafted in 18k gold with a sublime lightness of touch and delicately decorated with diamonds, the unique forms lend a whimsical air to the finished jewels.

These minimalist pendants, earrings, rings and bracelets are fashionably functional as they offer an effortlessly versatile style perfect for an everyday look.
